The Founder's Story

The origin dates back to 2005, when Mr. Shihas P. I, young business entrepreneur sets out to start his first venture to mark a prominent position in the field of construction, started with material supply, in his hometown Vadanappally, a small town in Thrissur District. The strong motive and management skills have helped to explore different aspects of business and prove excellence in successful completion of various projects with corporate clients from material supply, land development, breaking of boulders, to large scale infrastructure projects and eventually diversified the business in Kerala. The successful execution of various projects have helped in the procurement of an A' Class Contractor license to undertake Gov. projects. Within a short span of time we will be expanding and extending our projects to UAE.
